PROFESSIONAL SUMMARY

Healthcare quality and performance improvement professional with 5+ years of healthcare experience spanning enterprise data analytics, KPI/dashboard development, and large-scale process transformation across leading health systems, including Johns Hopkins, Cleveland Clinic, and Endeavor Health. Builds reporting frameworks and executive-level performance summaries that translate clinical, operational, and financial data into actionable improvement strategies — delivering \$2.6M+ in documented cost savings and a 50% reduction in expired inventory. Six Sigma Black Belt and ProSci Change Management (ADKAR) certified, with a track record of engaging physicians, operational leaders, and administrative data vendors to close performance gaps and advance quality improvement targets. Maintains active frontline clinical practice, bringing firsthand bedside insight to enterprise quality and care transformation work.

PROFESSIONAL EXPERIENCE

Director, CORE Solutions — Compass Group USA, Chicago, IL

Feb 2026 – June 2026

Role concluded June 2026 following restructuring of the CORE Solutions division.

- Built organization-wide reporting and KPI frameworks — dashboards, scorecards, and executive summaries — to track adoption, performance, and continuous improvement across enterprise initiatives, translating complex operational and financial data into recommended paths for improvement.
- Led a 52-person team — 5 managers, 44 analysts, 3 interns — serving as liaison across IT, operations, and business stakeholders to identify data elements needed for accurate reporting and drive performance improvement across multi-site operations.
- Directed end-to-end Birchstreet platform onboarding across 100+ venues — requirements gathering, configuration, training, and hypercare — automating bidirectional data sync to enable real-time performance and margin visibility.
- Analyzed performance and process data against internal goals and benchmarks to identify improvement opportunities; implemented AI-driven forecasting models to support data-informed decision-making.
- Completed enterprise Azure Active Directory rollout, applying data governance and access-management principles to integrate hundreds of disconnected applications into a unified model across IT, security, and business stakeholders.

Senior Hospital Medicine Technician — Nocturnal (PRN), Endeavor Health, Evanston, IL

Mar 2023 – Present

Maintained continuous PRN bedside practice at Endeavor Health across all corporate roles, keeping frontline clinical insight and physician collaboration connected to enterprise quality, data, and operations work.

- Operate in high-acuity, time-critical environments, making rapid decisions during code and rapid-response events.
- Coordinate with multidisciplinary clinical teams during advanced procedures and critical-care operations.
- Clinical certifications: ACLS, BLS, PALS, NRP | Employee of the Month (×7) | Service Value Award (×11).

Senior SaaS Implementation Specialist — Cardinal Health, Dublin, OH

Feb 2024 – Oct 2025

- Led end-to-end onboarding and go-live of the WaveMark SaaS analytics platform across 6 health systems, including Johns Hopkins and Cleveland Clinic, deploying RFID and Kanban inventory tracking and reporting across 500+ procedural and nursing areas.
- Served as liaison between clinical leaders, physicians, and administrative data teams to identify accurate data elements and ensure reporting effectiveness across each health system.
- Analyzed clinical, financial, and supply data to identify opportunities for improvement, developing action plans and monitoring performance against internal goals and industry benchmarks.
- Managed performance and process improvement projects across sites, identifying and engaging key stakeholders and defining action steps to keep initiatives on goal and on timeline.
- Delivered \$2.6M+ in documented cost savings and a 50% reduction in expired inventory across the deployed customer base through data-driven process improvement.

SaaS Supply Chain Analyst — Cardinal Health, Dublin, OH

Aug 2023 – Feb 2024

- Drove data accuracy and waste reduction through audits, root cause analysis, and clinical team partnerships; promoted to Senior SaaS Implementation Specialist after 6 months.

EDUCATION

Master of Science, Health Data Science — Northwestern University

Bachelor of Science, Health Administration & Neuroscience (cum laude) — University of Illinois
